

MAILI

A True Reflection of Aesthetic Refinement

MaiLi

The perfect expression of science, beauty and art, MaiLi was meticulously designed fusing Swiss luxury with new, patented hyaluronic acid technology to deliver a breakthrough in molecular beauty.

From outfits styled to countries visited, art curated to dishes prepared, every element within your world has been selected with refined precision. At MaiLi, we believe your beauty choices are no exception to your carefully-crafted lifestyle, which is why we spent years fusing the finest Swiss luxury with art, beauty and science, to create a breakthrough in HA aesthetics.

Powered by patented technology, MaiLi's deluxe portfolio offers a supreme blend of supple volume and elasticity. A very soft and springlike gel that works in harmony with authentic movement and expression, for you to continue shaping and perfecting your world with refined results.

Beautification

Harmonise Your Reflection

With years spent creating an aesthetic that feels right and unique for you, you've mastered the art of living.

From interiors to fashion, you understand the power of symmetry within art and design, while finding balance within yourself and your lifestyle. At MaiLi, we believe your appearance is no exception to your fine-tuned world. Viewing your features as sculpture, our premium portfolio enables you to refine your vision of authentic beauty, while bringing the art of living into your aesthetic world.

MaiLi's premium portfolio was luxuriously crafted with revolutionary HA science to beautify with Swiss perfection. Whether you wish to define your looks or perfect flaws, MaiLi shapes, sculpts, contours and remodels with deluxe detail to craft your vision. Finding inspiration from the Golden Ratio of beauty, MaiLi professionals work with the power of symmetry to harmonise proportions through profile balancing and facial sculpting. A bespoke treatment using an approach as unique as you and your carefully-curated lifestyle.

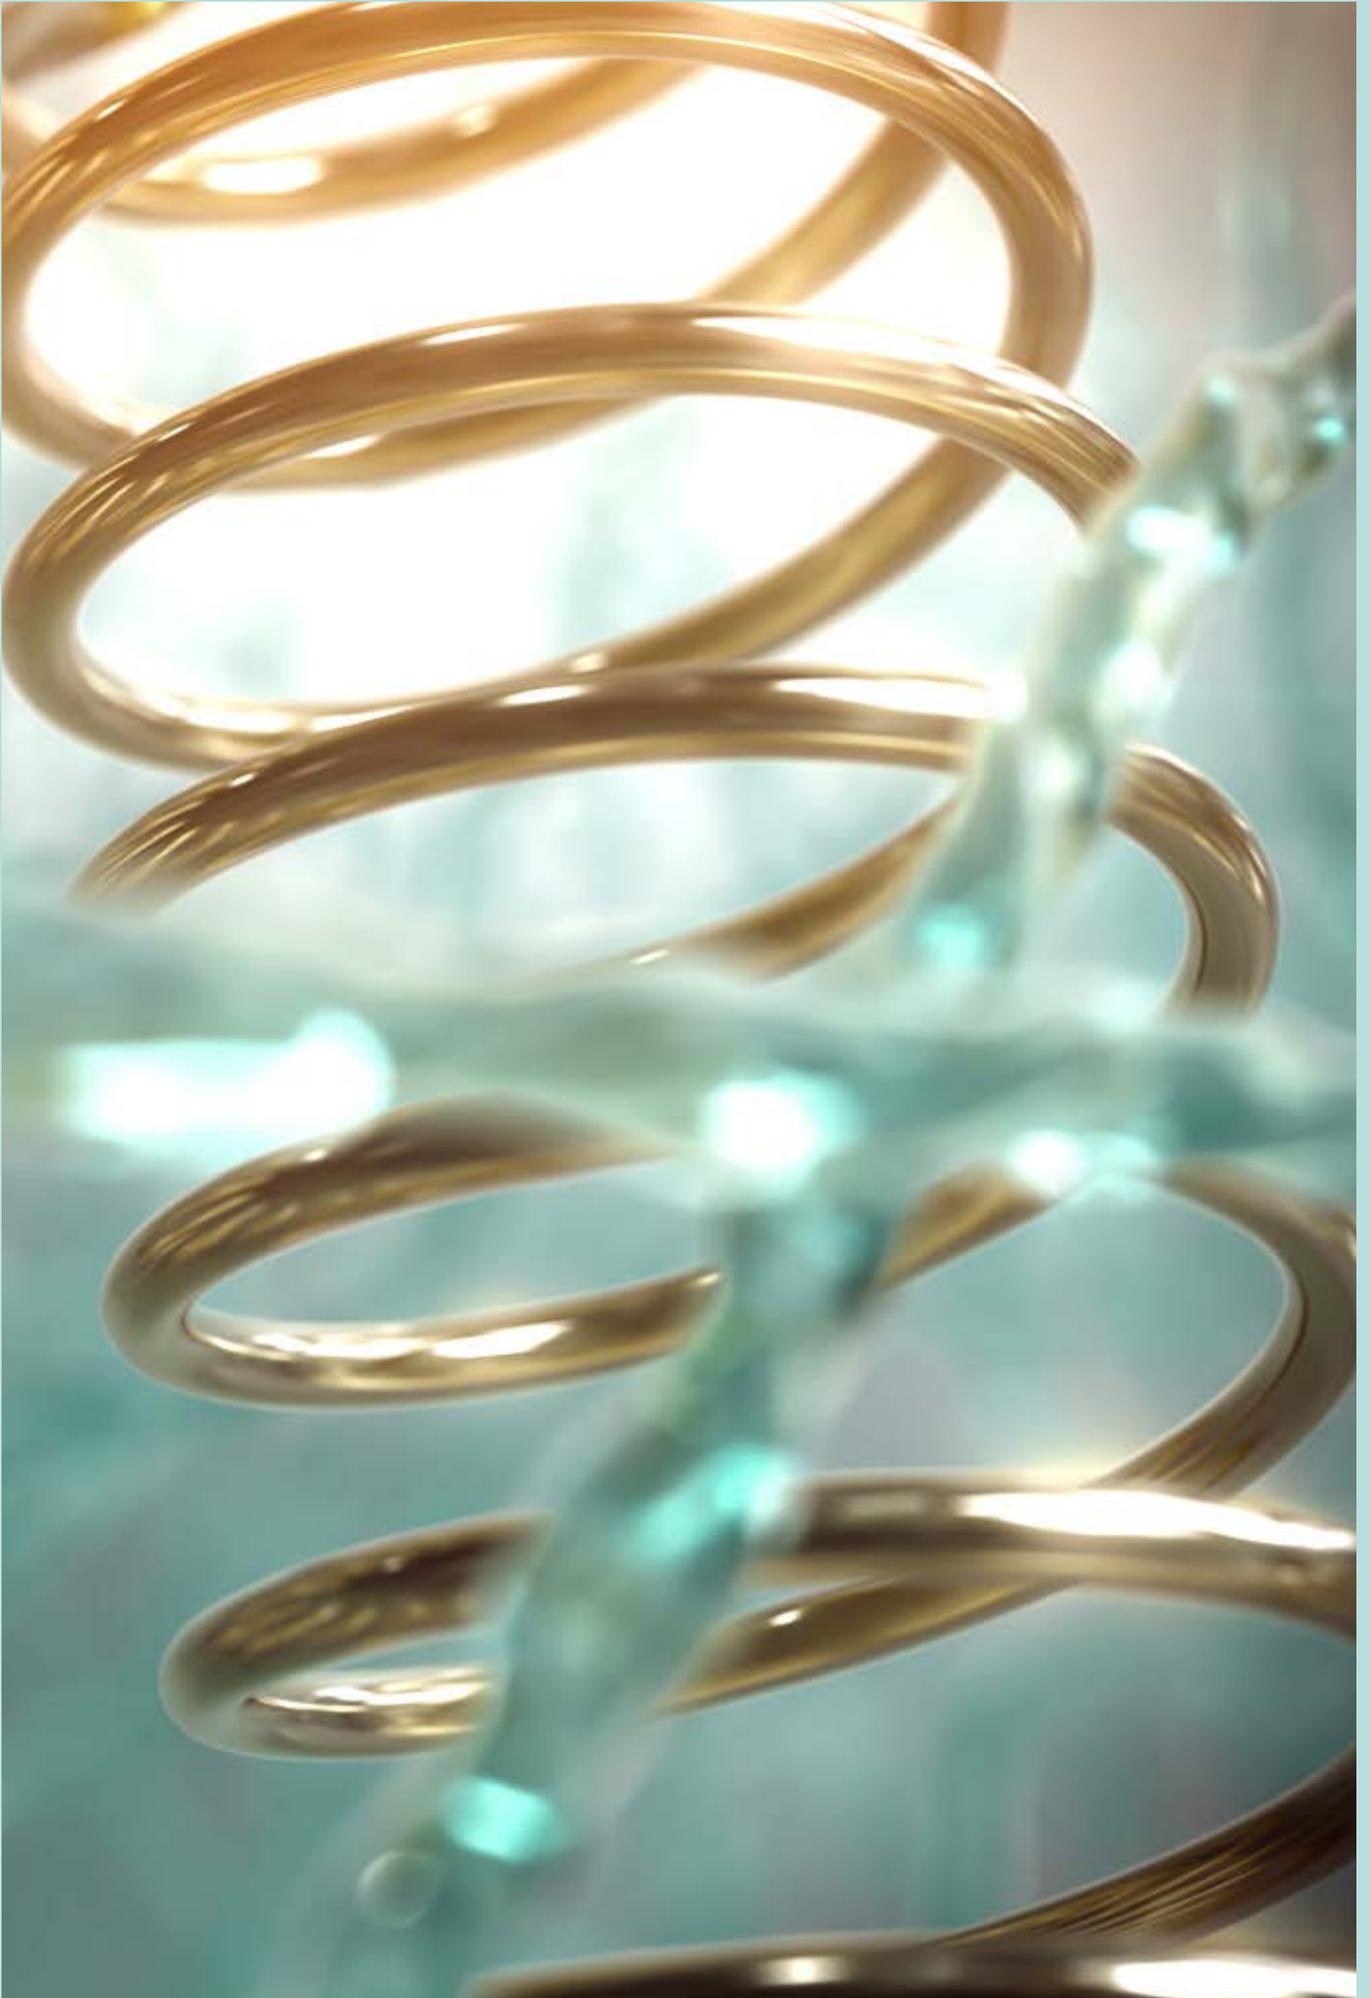

Rejuvenation

Reverse the Signs of Ageing

As the ageing process begins, bones, muscles and skin get thinner, and youth-preserving skin proteins begin to lose their power. Making up 75-80% of your skin, collagen and elastin are responsible for preventing fine lines and wrinkles. Where collagen supports moisture retention and volume, elastin contributes to your skin's ability to bounce back with natural elasticity. Volumising and hydrating HA decreases as you age. Fat loss, muscle degradation, sun and environmental damage also lead to lines, sagging and misshaping, and affect your appearance over time. Time, that MaiLi aims to give you back.

Breathing life into ageing skin, MaiLi's supreme HA fillers replenish lost moisture and healthy vitality with a soft, springlike filler that reflects natural movement and expression. Designed to rejuvenate the face, MaiLi's four fillers work together to soften and smooth fine lines, wrinkles, deep lines and folds. With natural suppleness and elasticity, MaiLi also lifts and tightens sagging or sunken skin by restoring shape and volume caused by muscle, bone and fat loss – reviving skin with youthful radiance.

MaiLi's Patented Science

A Breakthrough in HA Beauty

MaiLi was crafted in Switzerland using an highly advanced technology to design a new, patented formula that employs Smart Spring Science.

By employing an innovative transformational process that uses long chains of hyaluronic acid, MaiLi created a luxuriously soft and supple gel with springlike elasticity. A bouncy filler promising authentic volume, projection power and longevity – for smoothing, sculpting and shaping timeless results.

MaiLi's rejuvenating aesthetic treatments provide long-lasting care, hydration and refinement, as well as bringing to life an elegant, confidence-boosting radiance.

The subtle yet dramatic results of our delicately balanced treatments are outlined here by eight real customers. Use them as inspiration to decide on the vision that's right for you, then speak with your physician to decide on the best treatment strategy to enhance your look.

Full-Face Treatment

Gallery

Leanne opted for a comprehensive, full-face combination of treatments, with a total of 17ml MaiLi hyaluronic acid. Benefitting from the full range of products - Precise, Define, Volume and Extreme - Leanne's overall facial volume is complemented by more balanced features. Volumising the profile of the lips, softening the brow and temples, and minimising the nasolabial lines gives a hydrated, youthful and well-rested look, which stays natural and radiant while smiling.

"I now feel confident leaving the house without makeup. My skin and lips especially feel and look more hydrated since having the treatment."

Annishia was treated with 3ml of MaiLi Precise to the lips and beneath the eyes, reversing signs of ageing by reintroducing hydration, plumpness and subtle structural support. Fine lines beneath the eyes are gently improved, undereye smoothness is reintroduced, and lips are volumised to lend a youthful fullness and dimension.

“I think MaiLi is a great product, it left me with very subtle and natural results.

I feel more confident and look more refreshed.”

Charlotte underwent treatment to the whole face with 11ml of the MaiLi full range. Nasolabial folds are dramatically reduced while smile lines greatly improved, enhancing overall plumpness and reintroducing suppleness to the face. The forehead is smoother and hydration replenished, with deeper lines between brows minimised. Dimension added to the lips and cheekbones remodels the facial profile to restore shape, fullness and contours of the face.

“I quickly noticed significant but delicate improvements, it has perfectly enhanced the areas that bothered me I feel like the best version of myself again. This has been a game changer for me and something I now know I wouldn’t want to live without.”

Aesthetic Guide

The Beauty of HA

Used in the aesthetic industry for over twenty years, HA replenishes your body's natural volume which diminishes as you age. Once injected, HA combines with the water in your skin at varying depths to replace lost facial volume while refining and perfecting features.

Crafting Your Vision

During your initial consultation with your MaiLi professional, you will work together to create a vision – illustrating all solutions and possibilities available for you. Any queries or concerns you may have, including what to expect during and after the treatment, or what is uniquely possible with MaiLi, will also be answered. Overall, you will have a treatment journey that is unique for you.

Treatment Times

Depending on the treatment areas, a filler treatment usually takes 30 minutes to 1 hour. Consultations and follow-up appointments may also differ in time, as they are designed around your needs.

Other Treatments

MaiLi can be used alongside other treatments, including botulinum toxin injections – any additional treatments should always be performed according to your physician's recommendations.

Your Results

Most results are visible immediately, with final effects revealed after a short period of downtime.

Your Journey

MaiLi cares about your experience. Ask your physician for your MaiLi Journal to document your treatment journey – while enjoying after-care advice, beauty tips and more.

CE2797: Maili devices are intended for the correction of facial wrinkles or folds, for the definition or enhancement of the lips, and for the restoration or enhancement of the facial volume. Maili is also indicated for scar tissue treatment and volume lost by HIV-associated lipoatrophy.
